

Tomatosphere - Predictions of Seed Germination

Seeds that have been to the International Space Station

Name _____ Date _____

<p>PREDICTION</p>	<p>Seeds that have been to the International Space Station Choose ONE of the situations in the left-hand column. Explain why you made that prediction. Add any questions that your prediction raises that you want to try and answer.</p>
<p>No effect Seeds will germinate the same as the control group</p>	
<p>All seeds will survive but some will be slower to germinate than the control group</p>	
<p>Some seeds will NOT survive but germination will be at the same rate as the control group</p>	
<p>Some seeds will NOT survive AND will be slower to germinate than the control group</p>	
<p>Most seeds will NOT survive and few will germinate compared to the control group</p>	
<p>All of the seeds will not survive; there will be no germination of the seeds that were placed in the simulation of the Mars environment</p>	
<p>OTHER</p>
